Installation

1 Connect Electrical

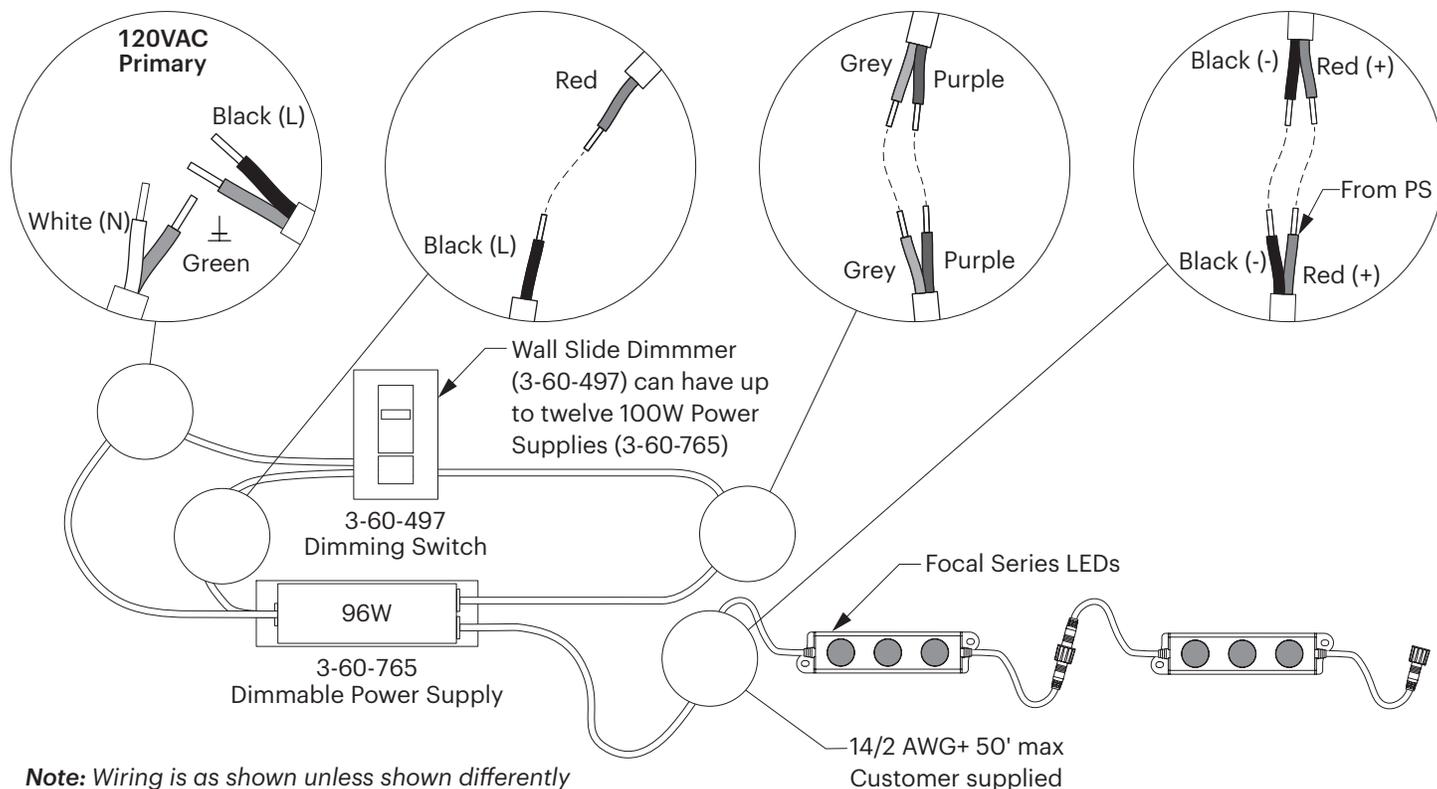

- a** Remove access panel to access lighting wiring. Pull wiring through access hole and replace access panel.

Installation

1 Connect Electrical cont...

b Have a qualified electrician wire the lighting to the driver and test lights.

Note: Wiring is as shown unless shown differently on 3form Lighting Layout Drawing

Installation

2 Install Panel

Once the lights are on, slide the unit against the desk. You can also screw through the desk into the white reflective panel if a more permanent installation is desired.
